Family History:

Thiago is 9 years old and he is small because he does not eat well. He lives with his mother and two sisters. Thiago's father abandoned them when his mother got pregnant with his now 7-month-old sister. He does not support them financially for food for the children. They are staying in a house made of cardboard and wood. The mother does not have a job. Last year due to the Covid-19 pandemic, Thiago and his 12-year-old sister stopped attending school because they do not have internet or any electronic devices to study. His mother is worried because this year they will not be able to study since school in Peru will be entirely virtual. Thiago's mother asks for help so that she can feed her 3 children since two of them are anemic.
